

## Controlled annual fertilization

Plug & play fertilizer tablets combined with rhizobacteria. Specially developed as a complete fertilization for new and existing plants for a whole year. This makes plants very low-maintenance and these tablets are therefore a cost-effective solution. The tablets are perfect for pot plants or hanging plants and for the fertilization needs of plants that are grown for the retail chain.

PHC Healthy Start tablets contain both macro-elements and micro-elements to ensure healthy plant growth. The dosed release of these elements ensures that the plant always receives a balanced amount of nutrition. The added microbiology facilitates the fixation of nitrogen, release of - among others - minerals, increase of chlorophyll concentration and decomposition of organic materials. The fulvine in the tablets facilitates the mobilisation of elements to the plant and the stabilisation of cell membranes.

**PRODUCT BENEFITS**

- Fertilization and biology in one
- Simple and economical application
- Enough fertilizer for a whole year
- No over-fertilization or under-fertilization
- Perfect for pot plants and hanging plants
- Odourless
- No leaching
- Nursery plants that receive Healthy Start perform better in the retail chain

**USE IN COMBINATION WITH OTHER (PHC) PRODUCTS**

PHC Healthy Start can be used in combination with all PHC fertilizers, PHC mycorrhiza products and PHC plant enhancers. Application of Biovin and Fulvic 25 amplifies the effect of PHC Healthy Start.

**Packaging, transport & storage**

PHC Healthy Start is supplied in two forms. 21 gram tablets are available in boxes of approx. 540 tablets and display boxes with 25 tubes of 10 tablets. 10 gram tablets are available in boxes of approx. 500 tablets and display boxes with 30 tubes of 15 tablets. This product attracts moisture. Store sealed, dry and away from frost. Shelf life: 2 years.

**Health and safety information**

Not intended for ingestion. Wash hands after use. In case of an accident or if you feel unwell, consult a doctor. KEEP OUT OF REACH OF CHILDREN.

**Product licences**

PHC Healthy Start is an organic fertilizer tablet.

# We Grow Soil.

**INGREDIENTS**

Rhizobacteria	2%
Organic fertilizer	77.5%
