

Cleanest possible!  
Derived from  
Dutch drinking water

Fully natural and soluble chelating agent. Exists of fulvic- and humic substances, derived from Dutch drinking water. This biostimulant enhances root and shoot development as well as fertilization properties.

At a depth of 300 meters, soil water is extracted for the purpose of drinking water production. Via specific patented processes, fulvic- and humic substances are separated from the Dutch drinking water supply. The production process is strictly controlled and fully foodgrade, without the use of any chemicals.

Fulvic Dry has high pH levels, highly concentrated fulvic contents, strong chelating properties and stimulating effects for healthy soil life. The product improves the uptake of minerals that normally are fixed in non-plant ready structures. Fulvic Dry chelates elements like phosphate which results in root development and better nutritional value for plants and crops. Nutritional value is specifically important for food and feed crops. In addition, Fulvic Dry, stimulates soil life which results in improved soil structure and  $\text{CO}_2$  storage. Due to the low molecular weight, fulvic is very mobile in plants. Fulvic Dry is also under cold conditions effective.

On crops, Fulvic Dry stimulates several enzymatic (SOD, POD, CAT) processes within plants. Stimulation of these enzymes result in increased stomatal gas exchange possibilities and increased chlorophyll content. Which enhances the tolerance to abiotic stress and increases plant quality.

## PRODUCT BENEFITS

- 5 times more concentrated than Fulvic 25
- Improves the rhizosphere
- Increased root development
- Chelates trace elements
- Efficient use of plant nutrients
- Enhanced plant pigment
- Increased abiotic stress tolerance
- Supports climate resistant crops
- Improved soil life

## USE IN COMBINATION WITH OTHER (PHC) PRODUCTS

Fulvic Dry may be used in combination with all PHC fertilisers, PHC microbial products and PHC defence strengthening products. Combined application of Fulvic Dry and OPF liquid products give beneficial results in the uptake of nutrients. Fulvic Dry is also available in liquid form under the name of Fulvic 25.

### Packaging, transport & storage

Fulvic Dry is supplied in 20 kg packages. The product attracts moisture and must be stored in a dry, frost-free place, away from direct sunlight. As with all organically sourced materials, the analysis may vary as much as 15%.

### Health and safety information

Not for consumption. Wash hands after handling the product. In the case of an accident or if you feel unwell, seek medical assistance. KEEP OUT OF REACH OF CHILDREN

**We Grow Soil.**

**Product licences**

Fulvic 25 is an organic biostimulant that has been approved for use in organic agriculture by SKAL, Fibl in accordance with EU regulation 834/2007. In addition, Fulvic 25 is certified by Ecocert for compliance with NOP.

**INGREDIENTS**

Drinking water extract	100%
------------------------	------

**DOSAGE**

Seedcoat	>2%
Formulation in inoculants/WP >200 gr/ha	
Field application	10 kg/ha
Row application	6 kg/ha
Potting plants (biweekly)	0.3 gr/l water

**ADDITIONAL INFORMATION**

Combined application with other products is possible. Fulvic Dry is free of heavy metals and residues. Different doses may apply for the recovery of fields in poor (bio) condition. Consult your PHC cultivation advisor for tailor-made advice.

**GUARANTEED ANALYSIS**

Elements	Value
Fulvic substance	85 %
Humic substance	15 %
B	51 mg/kg
Fe	460 mg/kg

**PROPERTIES**

pH	8,34
CEC	94 - 185
Density	1: 1,1
Solubility	100 %
Organic matter	59,6 %
Dry matter	92,1 %

**GUARANTEE**

Plant Health Cure sells the product Fulvic Dry. Carefully follow the instructions on the packaging. We do not guarantee the product's suitability for applications other than that originally intended. Plant Health Cure is only obliged to replace any products that do not meet the specifications. Suggestions for use and information on results of the product's use obtained by the producer may be considered reliable. As Plant Health Cure cannot control the conditions of the product's use, the buyer/user is responsible for all results, including any injuries or damage resulting from the use of this product by itself or in combination with other products. Keep out of reach of children.
